PROGRESS REPORT

As of November 25, 2021

Project Progress	

User Interface	 - So far this has been our progress when it comes to UI. It is just a typical log in form that we can think of right now. Maybe we will add more soon.
Functionality	- We haven't integrate it to PHP yet so basically it's just a normal layout.
Milestones	-N/A(SO FAR)
Others	-N/A

Impediments
- N/A(SO FAR). I think we will be facing an impediment in the near future once we integrate the pages and think of a better UI for our system.

Next Tasks

- Hopefully we will be able to finish the CRUD and Design for the LOG IN page.
